PROFESSIONAL SUMMARY

Self-taught Full-Stack Developer specializing in Next.js, React, TypeScript, and Node.js. Passionate about cybersecurity and Web3. Experienced building full-stack applications, REST APIs, Linux home labs, and security-focused software.

CORE TECHNOLOGIES

Frontend: Next.js, React, TypeScript, Tailwind CSS, HTML/CSS
Backend: Node.js, Express, Prisma, MongoDB, REST APIs, JWT, NextAuth
Languages: JavaScript, TypeScript, Python, C
Tools & Infrastructure: Git, Linux
Currently Learning: wagmi, viem, RainbowKit, MetaMask

PROJECTS

Full-Stack E-commerce Platform

- Built complete e-commerce application using Next.js, Prisma, and MongoDB.
- Implemented JWT/NextAuth authentication and REST APIs.

Web Vulnerability Scanner

- Built a scanner to identify common web vulnerabilities.

Virus Scanner

- Developed a security-focused malware scanning project.

Home Lab

- Linux, networking, virtualization, TryHackMe, and Hack The Box.

Upcoming: Crypto Portfolio Dashboard

- MetaMask integration, wagmi, viem, and smart contract interaction.

EDUCATION & CERTIFICATIONS

High School Diploma (2022)

IBM — Cybersecurity Fundamentals

UNI Athena — Basics of Cyber Attacks & Threats
